Footcare "Beyond a Pedicure"

This is a professional footcare service, not a pedicure. A step in the right direction if you are troubled with any of the following issues:

Difficulty reaching or seeing your feet; unable to manage nails or calluses without specialized equipment.

Thick or long nails; misshapen splitting or ridged toenails. Fungal conditions of the nails.

Excessive moisture between toes resulting in cracks or open skin.

In-growing or in-grown nails; thick, painful corns, calluses; extra dry skin, cracks or fissures that may further lead to painful medical issues.

Other nail or skin issues arising from bunions, hammer toes, crowding or improper foot wear.

Referral assistance to appropriate provider will be given if conditions are beyond the scope of this practice.

We thank you for putting your feet in our hands!!!
